Computed over the messages in this document (format SMSBACKUP-MANIFEST-1). The file Alex Carter.manifest.txt in this backup lists the same data, so this value can be recomputed independently.

Names are shown as stored in this device's contacts, followed by the number they were resolved from. They are not verified by any carrier.

This document was generated automatically from the message database of the device named above. It reflects the messages present on that device at the time of export; messages deleted before that time are not recoverable and are not included.

Morning! Are we still on for the 2pm walkthrough?

Me · 2026-08-31 19:04:00 +02:00

Yes — I'll bring the paperwork. Do you need anything else from me?

Alex Carter (+15550142) · 2026-08-31 19:09:00 +02:00

Just the meter readings if you have them handy.

Me · 2026-08-31 19:52:00 +02:00

Found them. Electricity 48210, gas 9127, both read this morning.

Alex Carter (+15550142) · 2026-08-31 19:58:00 +02:00

Perfect, thank you. That's everything sorted then.

Quick update after the walkthrough: the landlord agreed to repaint the hallway before the handover, and he'll send the revised inventory by Friday. He also asked whether you want the garage key cut — no charge either way, just let him know before the end of the week.

Me · 2026-08-31 22:14:00 +02:00

That's great news. Yes to the spare garage key please.

Alex Carter (+15550142) · 2026-08-31 23:00:00 +02:00

Passed it on. See you
Friday!

Me · 2026-09-01 19:00:00 +02:00

Inventory arrived and it all looks
right. Thanks for chasing it.
